By using any of the Services, Users agree that their information, including personal information, will be collected, used, and disclosed as outlined in this Privacy Policy. You may visit the Website anonymously. You are not legally required to provide us with any personal data and may do so (or avoid doing so) at your discretion.  - Personal interests;
 - Location;
 - Payment information;
 - Login information and account details for any social media networks or pre-existing accounts on external platforms or websites that you choose to connect to your LITT account;

B. Information Collected Automatically When You Access the Services

i. *Location Information*

If you give us permission, we can collect your precise geolocation (latitude and longitude) through various means, depending on the service and device you’re using, including GPS, Bluetooth or wi-fi connections. LITT Global uses your location information to notify you of deals

and promotions at restaurants, hotels, shops, and local attractions near you.

The Services collect location information (including GPS and wi-fi data) differently depending on your settings and device permissions. The collection of your geolocation may occur in the background even when you aren't using the Services if the permission you gave us expressly permits such collection. LITT Global may also infer the general location of your device and the geographic regions in which Users are located. For example, your IP address may indicate your general geographic region.

If you decline permission for us to collect your geolocation, we will not collect it. Any geolocation information that we collect before you decline permission will remain stored in our database unless you separately request that such information be deleted.

ii. *Content Information*

We collect content you create, upload, or publish using the Services and information about the content you provide, such as if the recipient has viewed the content and the metadata that is provided with the content.

iii. *Usage Information*

We automatically collect information about your activity on the Services, such as how you use them (e.g., date and time you logged in, features you've been using, searches, clicks and pages that have been shown to you, referring webpage address, advertisements on which you have clicked), how you view or otherwise interact with content, and how you interact with other Users. We may also keep track of how you interact with links available on the Services, including third-party services and Users by redirecting clicks or through other means. We may share aggregate click statistics, such as how many times a particular link or page was visited.

iv. *Device Information*

We collect information about the devices you use to access the Services, including device model, IP address, type of browser, version of operating system, identity of carrier and manufacturer, radio type (such as 4G), preferences and settings (such as preferred language), application installations, device identifiers, advertising identifiers, and push notification tokens. In addition, if you permit us to do so, the App may access your device's address book or calendar.

v. *Cookies, Analytics, and Third-Party Technologies*

We collect information through the use of "cookies," tracking pixels, data analytics tools like Google Analytics, SDKs, and other third party technologies to understand how you navigate through the Services and interact with advertisements, to make your LITT experience safer, to learn what content is popular, to improve your site experience, to serve you better ads on other sites, and to save your preferences. If you register for a LITT account or continue to use the Services, you agree to LITT Global's use of cookies and other technologies to track and record your usage

Cookies are small text files that web servers place on your device; they are designed to store basic information and to help websites and apps recognize your browser. We may use both

session cookies and persistent cookies. A session cookie disappears after you close your browser. A persistent cookie remains after you close your browser and may be accessed every time you use the Services.

You may control the technical information that LITT Global collects. Although we do not change our practices in response to a “Do Not Track” signal in the HTTP header from a browser or mobile application, you can manage your cookies preferences— including whether or not to accept them and how to remove them— through your browser or device settings. Please note that, if you disable or choose not to accept cookies from us, you may miss out on certain features of the Services and some aspects of the Services may not function properly if you choose to disable cookies. By choosing to disable cookies, you agree to release LITT Global, along with its officers, employees, directors, shareholders, affiliates, agents, and licensors, from any and all claims, liability, and losses that may arise out of, result from, or relate in any way to your decision to disable cookies (including any limitation on your ability to use the Services).
